

SECTION 3: PYTHON OBJECT AND DATA STRUCTURE BASICS, 2 hrs 2 mins, 33 parts

• 33/36 Coding Exercise 9: File I/O

- # Open the file 'test.txt' in write mode ('w')
- file = open('test.txt', 'w') <- we are opening a txt file in write mode
- # Write 'Hello World' to the file
- file.write('Hello World') <- writing to the file
- # Close the file
- file.close() <- then closing the file
